 - iii. The availability of an Approved Emissions Modification, an Emissions Compliant Recall or the Buyback, Lease Termination, and Owner/Lessee Payment Program.

 - iii. Other emissions-related vehicle characteristics that result from the modification; or

- iv. The availability of an Approved Emissions Modification, an Emissions Compliant Recall or the Buyback, Lease Termination, and Owner/Lessee Payment Program.
- (c) May identify Subject Vehicles as having been modified, or not modified, in accordance with the Approved Emissions Modification or the Emissions Compliant Recall on the basis of VIN-specific information provided to the Beneficiary by the Defendants.
- (d) Notwithstanding the foregoing, the Beneficiary may deny registration to any Subject Vehicle on the basis that the Subject Vehicle fails to meet EPA's or the Beneficiary's failure criteria for the onboard diagnostic ("OBD") inspection; or on other grounds authorized or required under applicable federal regulations (including an approved State Implementation Plan) or under Section 209 or 177 of the Clean Air Act and not explicitly excluded in subparagraphs 9(a)-(b).

10. Reliance on Certification

The Beneficiary acknowledges that the Trustee is entitled to rely conclusively on, without further duty of inquiry, and shall be protected in relying upon, this Appendix D-3 Certification, or a subsequent communication from the Lead Agency designating new or additional authorized individuals, as setting forth the Lead Agency and the authorized individuals who may direct the Trustee with respect to all of the Beneficiary's rights and duties under the Trust Agreement. TRUST AGREEMENT

Paragraph 7. Publicly Available Information

STATE OF HAWAII

The Department of Business, Economic Development, and Tourism (DBEDT) has been designated as the Lead Agency for purposes of the State of Hawaii's participation as a Beneficiary of the Volkswagen (VW) Environmental Mitigation Trust (Trust). In accordance with Hawaii's CERTIFICATION FOR BENEFICIARY STATUS UNDER ENVIRONMENTAL MITIGATION TRUST AGREEMENT, Paragraph 7, Publicly Available Information, DBEDT will maintain and make publicly available all documentation and records: (i) submitted by DBEDT in support of each funding request (Eligible Mitigation Action); and, (ii) supporting all expenditures of Trust Funds until the Consent Decree Termination Date, unless the laws of the Beneficiary require a longer retention period. The purpose of the public outreach component of the Trust is to promote transparency and offer opportunity for community engagement so that interested stakeholders and communities, including those with any environmental justice concerns, can provide input on the eligible mitigation projects that best serve the needs of the respective communities and the State of Hawaii.

The following explains how the State of Hawaii will comply with Paragraphs 7(i), (ii), and (iii):

Paragraph 7(i) – The procedures by which the records may be accessed, which shall be designed to support access and limit burden for the general public.

DBEDT will maintain all required Trust records in accordance with all applicable laws and procedures. In order to provide easy access and limit the burden to the general public and other interested stakeholders, DBEDT will create and maintain a public website for the duration of the Trust exclusively for its Trust activities: energy.hawaii.gov, under the Testbeds & Initiatives – Hawaii VW Environmental Mitigation Trust webpage. This website will provide all documentation and records required to be made publicly available by the Trust, including but not limited to:

- Records submitted by the State of Hawaii in support of each funding request
- Records supporting all expenditures of the Trust Funds by the State of Hawaii
- Any other records and documentation required by the Trustee to be made publicly available

DBEDT also intends to provide through its website additional documents and records related to the Trust, including but not limited to the following documents:

- Relevant background documentation (Consent Decree, Court filings, etc.)
- Reports required to be submitted to the Trustee
- Beneficiary Mitigation Plan

Paragraph 7(ii) – The procedures by which public input will be solicited and considered for the Hawaii Beneficiary Mitigation Plan.

Since the public announcement of the Trust settlement, DBEDT has been coordinating with public and private stakeholders, and receiving input for consideration with regard to the development of a Beneficiary Mitigation Plan (Plan). In addition, prior to the filing of its Plan, DBEDT will solicit and

consider public input online via DBEDT's website: energy.hawaii.gov. Public input received will be considered and incorporated as practicable. DBEDT will issue a press release to announce the opportunity for the public to provide input on the Plan. The press release will include instructions and procedures by which public input can be provided online (e.g., online questionnaire or form).

Paragraph 7(iii) – A description of whether and the extent to which the Certification in this Paragraph 7 is subject to the Beneficiary's applicable laws governing the publication of confidential business information and personally identifiable information.

This Certification is not prohibited by State laws, including Chapter 92F, Hawaii Revised Statutes (Uniform Information Practices Act, Modified), which governs public accessibility to government documents: http://www.capitol.hawaii.gov/hrscurrent/Vol02_Ch0046-0115/HRS0092F/HRS_0092F-.htm
